Justification for course proposal:

We propose moving this required pre-credential course (pre-requisite) from the Undergraduate Studies in Education branch to the Teaching Credentials branch. The course is a pre-requisite to the five MAT with Teaching Credentials programs, and Teaching Credentials faculty typically teach the course, so we believe it will be more appropriately housed in Teaching Credentials. The Chair of Undergraduate Studies in Education collaborated on this proposal and is in full support of the class moving (see attached email of support).

In addition to the change above, the California Commission on Teacher Credentialing, the governing and accrediting body for all school personnel programs in California, has substantially changed the program standards that all Education Specialist (special ed) credential programs must meet, and now also requires new Teaching Performance Expectations. This course is used to meet some of those standards and TPEs, and so it was updated to incorporate the new TPEs and standards into SLOs, activities, assignments, assessments, and readings. The course description was also modified to reflect the entire age range of special education credential services.

The course is offered through CCE during summer sessions and stateside during fall and winter semesters, so that is checked (as a change).

The course classification code was changed from Independent Study to Activity, which more closely aligns with the goals and activities of this course.

This course is required in the following degree/majors and so consultation emails were sent and some were responded to (all are attached):
