This course complies with the credit hour policy:

Yes

Justification for course proposal:

This course is currently listed as a classification of .50 WTU per student for our faculty load. Due to the high demands of this course, and the amount of hours necessary to individually supervise each student outside of the expected teaching and supervision hours, it is necessary that the faculty unit load capture the level of demand on the faculty member's time. Therefore, we are proposing to raise the unit load to .667 WTU per student. We are accommodating this increased load distribution in this course by adjusting down the unit load for several of our field experience courses (EPSY 439 and 441), thereby negating the unit load (fiscal) impact in our program.

Previously, all course codes were changed from EDS to EPSY. Therefore we updated the course description and course note to indicate EPSY.

Course Description: (Not to exceed 80 words and language should conform to catalog copy.)

Continued training in development of advanced skills in administration, scoring, and interpretation of tests taught in EPSY 242 A-B, EPSY 243A, EPSY 243B, EPSY 244, or EPSY 247. Students will be assigned cases by the practicum supervisor as appropriate. Students are expected to successfully engage in all stages of assessment process with clients.
