#### What is the CliftonStrengths™ program?

For more than 50 years, CliftonStrengths™ has guided millions of people in discovering what they do best. CliftonStrengths™ identifies an individual's top talents and provides a guide for journey of growth. CliftonStrengths™ is used for teams of any size and for any career area. Through a series of facilitated workshops combined with optional one-on-one team member coaching sessions, teams are led through a Strengths discovery and team-building process.

#### How will CliftonStrengths help my team?

Evidence of the changes seen after integrating CliftonStrengths™ in the workplace is conclusive. Employees who receive Strengths-based development have 73% lower attrition, 18% increased performance, 23% higher engagement, and 10% higher customer metrics. Employees who focus on using their Strengths are three times as likely to report having an excellent quality of life, and are six times more likely to be engaged in their jobs.

#### Logistics for Sac State

Organizational & Learning Development is here to guide your team through your own unique Strengths journey. Our two certified Gallup CliftonStrengths™ coaches offer a range of team workshops and individual coaching sessions to help Sac State employees identify, invest in, and apply their talents. Your team's Strength coach will take care of workshop scheduling and provide all content and materials.

To bring CliftonStrengths™ to your team, please complete the short intake form:
