Redefine the Possible™

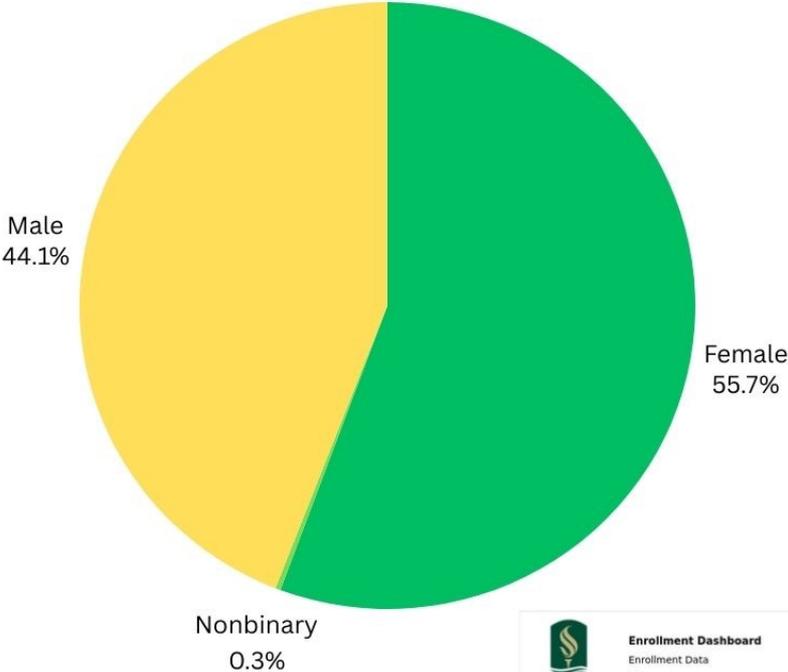

Why Explore This Topic?

1. Diverse campus, proud of our diversity:
 - Hispanic-serving institute, Asian-American Native American Pacific Islander Serving Institute
 - Female-serving institute, and a Mother-serving institute
2. Women: Historically marginalized; confusing on a college campus
 - Despite numbers and success, female students will be underpaid and enter feminized (lower-paying) professions
3. Campus Safety Convo at Sac State:
 - Pointed in last 2 years
 - Despite much work, students don't feel safe on campus
 - Is that true? Anecdotally, its been heartbreaking.
